

Science Choice Board: Resources available in Clever “Distance Learning Resources”

Link

Pick 5 by Friday

Draw a picture of the Solar System and label all of the planets. Label them terrestrial or Gas Giants.	Track the weather over this week including temperature, and sunny/cloudy.	Identify and draw a picture of two things in your house that have Kinetic Energy and two things in your house that have Potential Energy and label them.	Track the moon phases over the next week by drawing a picture of the moon each night and labeling the moon phase that it is in.	Find 5 things around your house that you and your family may be able to do better in order to help protect our Watershed.
Complete one of the activities in the Google Drive Folder “Distance Learning Assignments” for science.
