

# Read Naturally Live

## The participant understands:

- The role of fluency in reading development.
- How to determine who needs reading intervention.
- How the research-based Read Naturally Strategy works and why it is effective.

## The participant knows how to:

- Plan and set up the program.
- Place students.
- Implement the steps.
- Check initial placement.
- Keep students challenged by monitoring student performance.
- Troubleshoot when a student is not improving.

# Certificate of Completion

*This certificate acknowledges that*
